What is Geofeedia?

Geofeedia is the only patented*, location-based social media monitoring, analysis and engagement platform for law enforcement. Our solution enables law enforcement agencies to derive social intelligence to understand, in real-time, what's happening at the locations most important to them.

With Geofeedia, you will have the ability to quickly search seven social media sources by geo-location, from a specific address to an entire neighborhood, then filter results by timeframe, keywords or specific individuals.

We have many ways to visualize and analyze social media within our platform. These include: 1) Map View, 2) Collage View, 3) Streamer View, 4) Analytics View, 5) Alerts and notifications, and 6) User Track View.

Law Enforcement agencies rely on Geofeedia for:

- Targeted surveillance and monitoring
- Tracking users of interest
- Crisis response and management
- Resource allocation
- Live event security efforts
- Source and data evaluation and corroboration
- Community engagement
- Command center operations
